

How you practice  
is just as important  
as how you play.

**FM-150**

**Automated Baseball Practice Machine**

## Check this out.

- √ Shoots balls over 400'.
- √ Windows® Mobile 5.0 pocket PC controller
- √ Remotely controlled from anywhere on a baseball field.
- √ Scout and simulate previously played games.
- √ Instruct and communicate instead of hitting balls.
- √ Include multiple players in one drill.
- √ Coach from behind the hitter instead of behind the machine.
- √ Repeatable routines can be customized for batting practice, bunting, soft toss drills, conditioning drills, and base running drills.

The driving force at FungoMan® is meticulous attention to product innovation based on modern coaching needs.

For more than four years, engineers at FungoMan, Inc. have researched and developed the most efficient, portable, and advanced baseball practice machine available.

Leading-edge technology has been introduced to control the motion and speed of the throwing head. A revolutionary ball-feeding system ensures perfectly placed baseballs that can fire every three seconds with speeds over 100 mph.

Zero-defect manufacturing processes at FungoMan, Inc. demand intensive employee training and comprehensive product testing procedures, rigorous rating standards, and an overall commitment to quality. These corporate values have built a reputation for exceptionally flexible, effective, and innovative products for coaches and players as well.
