FungoMan FM-150

Automated Baseball Practice Machine

The driving force at FungoMan® is meticulous attention to product innovation based on modern coaching needs.

Engineers at FungoMan, LLC have researched and developed the most efficient, portable, and advanced baseball practice machine available.

Leading-edge technology has been introduced to control the motion and speed of the throwing head.

A revolutionary ball-feeding system ensures perfectly placed baseballs that can fire every three seconds with speeds over 100 mph.

Customer satisfaction is #1 with FungoMan. A 1-year Bumper-Bumper warranty, on staff engineers and customer support staff insures user confidence.

These corporate values have built our reputation for exceptionally flexible, effective, and innovative products for coaches and players as well.
