For more than six years, engineers at FungoMan, LLC have researched and developed the most efficient, portable, and advanced practice machines available.

Welcome the new FungoMan FM-150S Automated Softball Practice Machine.

Players and Coaches appreciate the leading edge technology that controls the motion and speed of the throwing head.

A revolutionary ball-feeding system insures perfectly placed softballs that can fire every 3 seconds with speeds over 70mph.

Customer satisfaction is #1 with FungoMan. A 1-year Bumper-Bumper warranty, on staff engineers and customer support staff insures user confidence.

These corporate values have built our reputation for exceptionally flexible, effective, and innovative products for coaches and players as well.
